### Our gender pay gap report 2019

In 2017, the government introduced changes to existing equalities legislation (Equality Act 2010). These changes placed a legal duty on employers to publish a report annually detailing their organisation's gender pay gap.

NTU Temporary Staff Limited is committed to providing equality of opportunity for all throughout our activities.

### What is the gender pay gap?

The gender pay gap displays the difference in average pay between male and female employees. This is different to equal pay which ensures male and female employees receive the same pay for the same role.

As a recruitment business, this report takes into account the placement of candidates into temporary positions at all levels across our assignments.

A more detailed breakdown of the proportion of male and female employees at each pay quartile is shown below.

We confirm that the figures in our disclosure are accurate and have been calculated in accordance with gender pay gap reporting requirements as outlined in the legislation and accompanying guidance.
