Gender pay gap report 2024

Our gender pay gap report 2024

At Unitemps our activities have been developed for the education sector. We are driven by a core belief that success comes from those that harness the benefits of a truly diverse and inclusive culture. We are committed to providing equality of opportunity for all throughout our activities.

What is the gender pay gap?

The gender pay gap displays the difference in average pay between male and female employees. This is different to equal pay which ensures male and female employees receive the same pay for the same role. As a recruitment business, this report takes into account the placement of candidates into temporary positions at all levels across our clients' organisations. A more detailed breakdown of the proportion of male and female employees at each pay quartile is shown below.

I confirm that the figures in our disclosure are accurate and have been calculated in accordance with gender pay gap reporting requirements as outlined in the legislation and accompanying guidance.
